

Hand Sealer

IMPULS SEALERS

This machine is our prime model within series of manually operated sealers. and it is specially used to seal the openings of ready-made bags. There is impulse sealing element which gets heated only during sealing process. The sealing time is adjustable with a timer and audio-visual sealing indicators. It is best suitable for perfect packaging with very low power consumption. and is facilitated a round element option for sealing and cutting simultaneously.

Hot Bar Sealers

HOT BAR SEALERS

Additional features of HOT BAR Sealers especially for sealing the multi layer laminated bags. Almost all range of multi layer laminated bags such as aluminium/ paper/ polyethylene/ polyurethane can be sealed with the HOT BAR Sealers. Lining Type of Sealing is also Available In Hot Bar Sealers

TECHNICAL SPECIFICATIONS:

| Sr. No. | Model | Sealing Size (in mm) | | Power | | Dimensions (in mm) | | | Weight |
|---------|-----------|----------------------|-----|-------|------|--------------------|----|-----|--------|
| | | L | W | Volt | Watt | L | W | H | Kg |
| 1 | MA 200 H | 200 | 1.5 | 240 | 250 | 320 | 85 | 250 | 3.5 |
| 2 | MA 300 H | 300 | 1.5 | 240 | 350 | 420 | 85 | 250 | 5.5 |
| 3 | MA 400 H | 400 | 1.5 | 240 | 450 | 520 | 85 | 250 | 6.5 |
| 4 | MA 500 H | 500 | 1.5 | 240 | 550 | 620 | 85 | 250 | 7.0 |
| 5 | MA 200 HB | 200 | 12 | 240 | 125 | 340 | 95 | 210 | 2.6 |
| 6 | MA 300 HB | 300 | 12 | 240 | 250 | 450 | 95 | 210 | 3.6 |
